Summary

Full-stack developer experienced in building scalable web applications using React, TypeScript, Node.js, MongoDB and Express. Skilled in designing APIs, creating responsive UIs, and implementing authentication and database-driven features for modern SaaS apps.

Work

Frontend Developer, Sprie (Percept Imagery) 📄 12/2022 – Present | Ahmedabad, India

- Developed **Customer and Admin dashboards** for Sprie using **React, TypeScript, and CoreUI**, delivering a seamless and responsive user experience.
- Implemented **data analytics dashboards** with smart tables, charts, calendar integration, search, and pagination to improve business insights.
- Integrated **AR model and virtual try-on (VTO)** previews directly into product dashboards, enhancing product visualization.
- Built **SprieLive**, a real-time virtual demo tool that enables users to meet customers, share products via **AR/VTO previews**, and control **camera and mic** functions smoothly.

Projects

FlowPay App 📄 09/2025 – 09/2025

- Built a **full-stack payment management app** to handle **user authentication, accounts, and transactions** securely.
- Implemented **JWT-based access and refresh tokens** for authentication and session handling.
- Developed **RESTful APIs** with **middleware validation** for managing users, payments, and account operations.
- Focused on **secure data flow** and smooth **frontend-backend integration** for a reliable user experience.

PetSoft 📄 04/2025 – 10/2025

- Developed a **SaaS web app** for managing **client and pet records** through a responsive dashboard.
- Integrated **Stripe-based subscriptions** for **payment handling** and **feature access control**.
- Focused on building a **clean, user-friendly interface** that simplifies daily management workflows.

Second Brain 📄 05/2025 – 10/2025

- Built an app to **save, organize, and access YouTube videos** and **Twitter posts** in one place.
- Added **secure link-sharing** and **access control** for private or public collections.
- Designed a **minimal, distraction-free interface** optimized for speed and ease of use.
